

Looking for Volunteer Students:

Provide assistance and input for the Mineral Exploration and Mining Industry!

The *Explore for More Diversity - Women* committee was established in 2010 as part of the BC Mining HR Task Force mandate to address diversity challenges affecting the mining and exploration industry.

In 2011 the team carried out a study on female participation in the BC mining and exploration industry. This study, and the subsequent report, established key baseline data on the participation of women in our industry, and highlighted opportunities to further engage employers, remove attraction and recruitment barriers for women, and develop retention initiatives to ensure women are fully participating in the industry.

The committee is putting strategies into action, to address these opportunities.

TO FIND OUT MORE VISIT: www.acareerinminingbc.ca

YOU WILL HELP US WITH:

- Administration
- Meeting participation logistics
