The Fred Kaiser Building (KAIS) is an easy walk along East Mall from the accommodations or the bus loops.

The Kaiser Building can be accessed through the Civil and Mechanical Engineering Building (CEME). When you enter from East Mall, continue straight down the corridor until the end. Turn left, and in a few metres you will be in the Kaiser Atrium. To access rooms on the second or fifth floor, either walk up the stairs straight ahead on your left, or use the elevator to the right of the stairs.
